This is a general clean-up sale of numerous lines of shoes for men, women and children, and among the various lots are some of the most remarkable values we have ever offered. It is a noteworthy fact that these are not 'bargain' shoes, such as are seen in large quantities in the periodical shoc sales elsewhere, seemingly made for the purpose, A few of the shoes in this sais are samples, and one lot was bought much below value; all the others are taken from our own regular stock and reduced. This means that every shoe offered is a safe shoe to buy, and fully guaranteed by us as good value at the original price. It also means that sizes are somewhat broken, but as there are many different styles, almost every customer should be able to find a pair that fits and that without much searching.

We are selling Men's and Women's \$5.00 and \$6.00 Shoes at \$3.85.
